INNOVATION

What is an Entrepreneurial Mindset

- A way of thinking that embraces **innovation, resilience, and problem-solving**.
- Essential for business success and **navigating uncertainty**.
- Helps individuals turn ideas into action.

**Once upon
a time ...**

Storytelling

- Storytelling is the art of using a **narrative structure** to convey information.
- It delivers a story with a clear **beginning, middle, and end** that aligns with the presentation's objectives, making the content more **relatable and memorable**.

Storytelling archetypes

- The Hero's Journey: Communicates a transformation from struggle to success
- The Story Mountain: Builds tension and anticipation

The Hero's Journey

This storytelling template consists of three distinct parts, or "**acts**," that include **a setup, confrontation, and resolution**. It makes for a well-structured and engaging narrative.

The Story Mountain

Introduction: sets scene and characters

Rising action: builds tension and problems

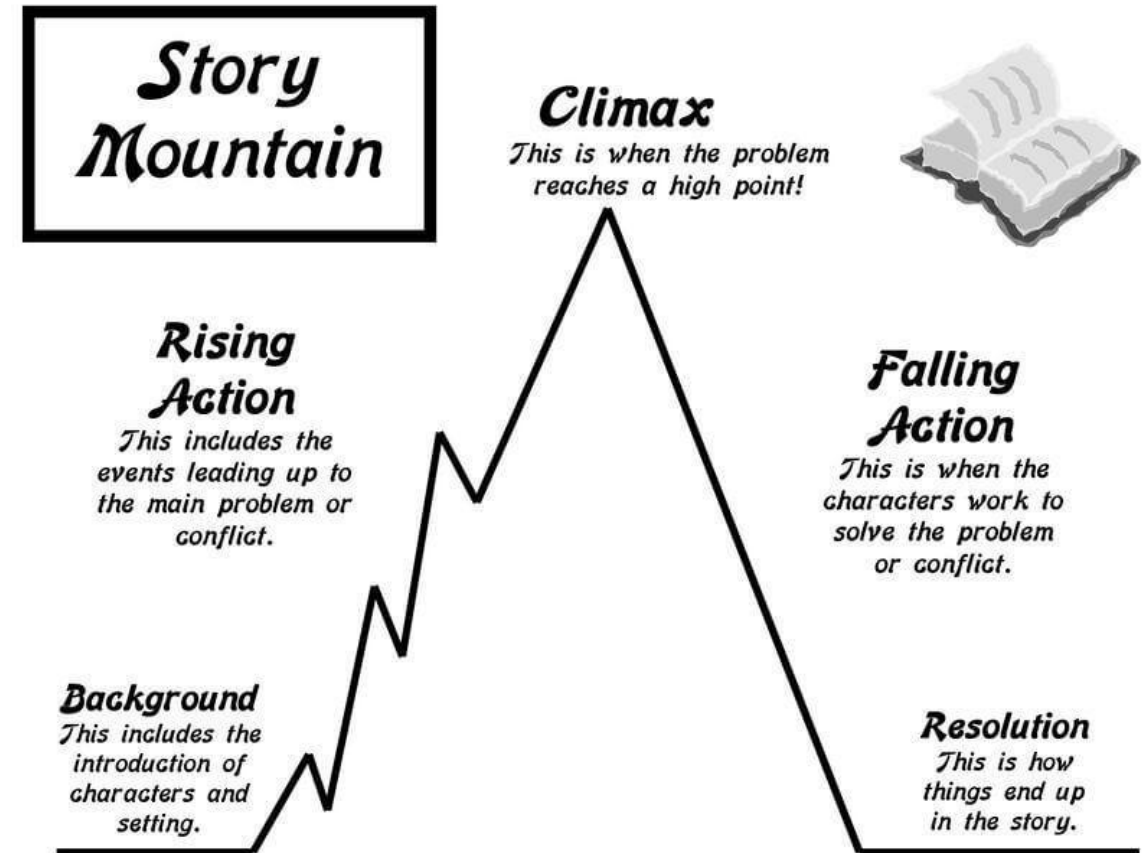

Climax: main conflict peak

- The most intense and important moment where the main conflict reaches its peak

Falling action: tension drops

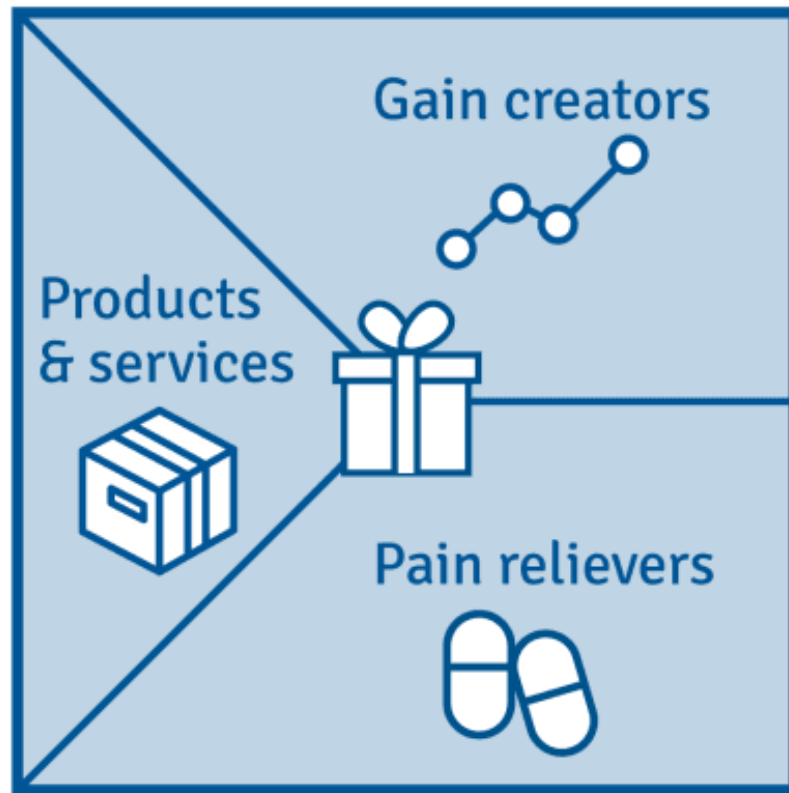

Resolution: story ends, and problem is solved

- The conclusion of the story and how the conflict is finally resolved

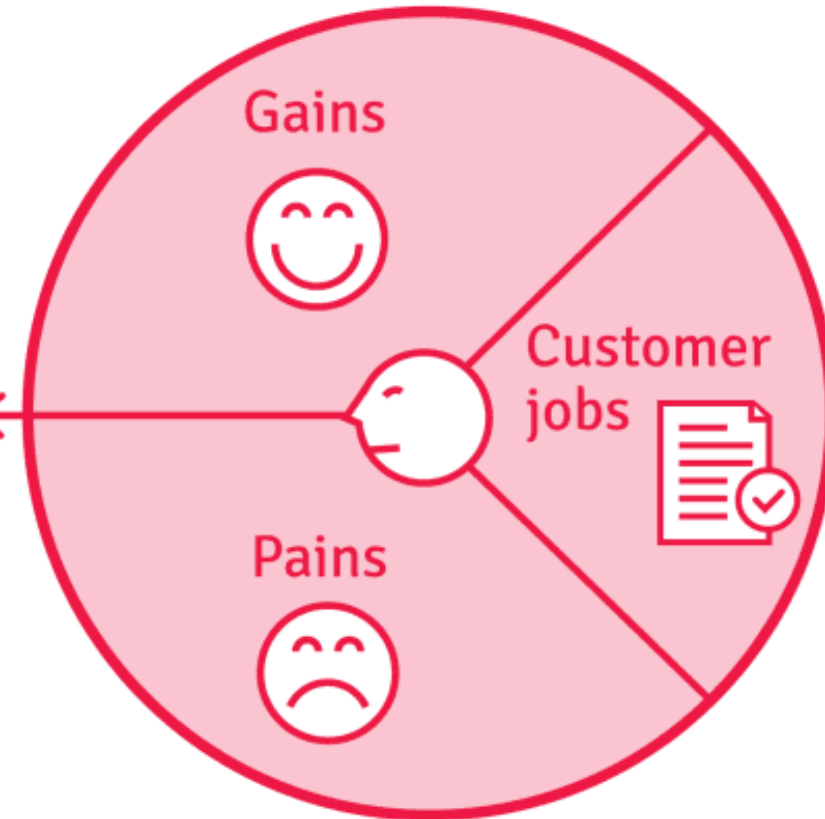

Value Proposition

Customer Profile

Putting Your Best Foot Forward: Presenting for Impact, Delivering for Success

The Pitches...

Different pitches you'll give as a founder:

Elevator pitch

Presentation pitch

Poster Presentation

Investor “sit down” pitch

The Problems...

Most people

Speak in jargon

Don't have a pitch worth sharing

Lack pitching “charisma”

Not “Happy Birthday” ready

The Elevator Pitch

“For early-stage student founders aiming to boost their idea, team or tech, I run an incubator that delivers prototyping funding, mentor support, and tailored entrepreneurial education—empowering them to scale their startups idea faster and with greater confidence.”

What do you remember...?

Who do I help?

What's their problem?

What do I provide?

What benefit do they receive?

What's working...

No jargon

A university-backed incubator with 10 years of experience

Personal confidence in my delivery + a “warm” intro

The Most Common Questions

- What problem are you solving?
- Who's the customer?
- What is your solution?
- Why should I care?
- What is your minimal viable products (MVP)?
 - Does it work as expected?

Minimum

The most rudimentary,
bare - bones foundation
of the solution possible

Viable

Sufficient enough for
early adopters

Product

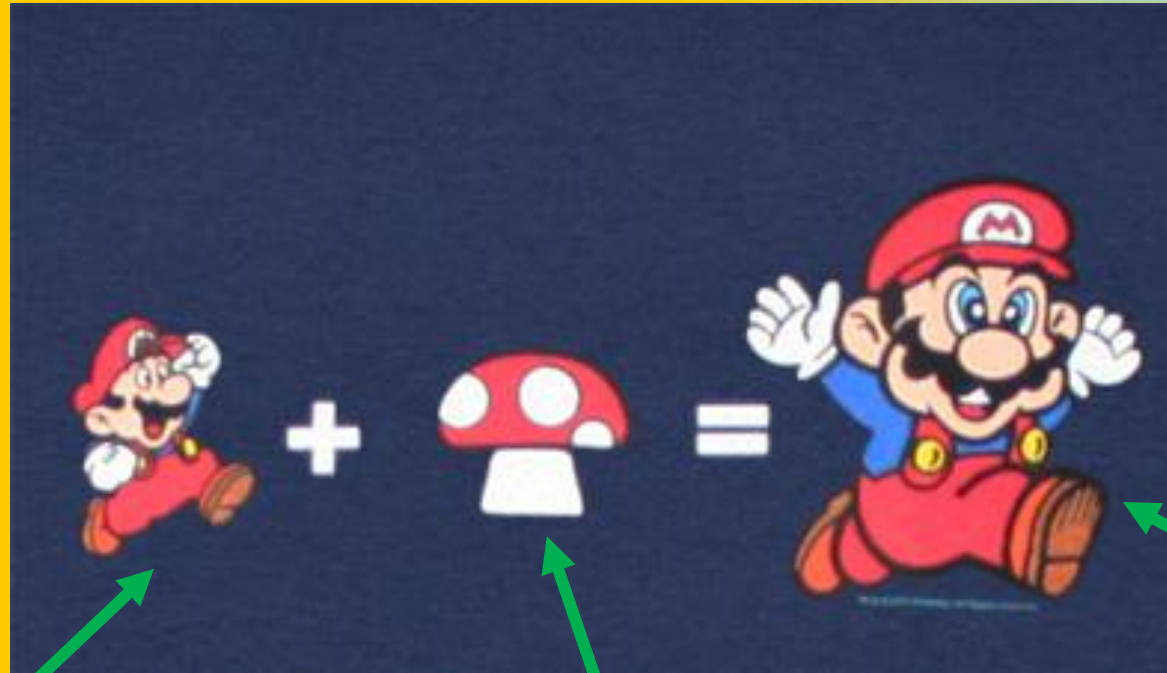

Something tangible
customers can touch
and feel

What makes a great story?

Characters!
Conflict!
Plot!
Victory!

Characters! - YOUR CUSTOMERS
Conflict! - THEIR PROBLEMS
Plot! - WHAT YOU DO FOR THEM
Victory! - THE VALUE THEY GET

Person who is a potential customer

Your Product

=> "This not what your business sales"

Awesome person who can accomplish

=> This is

For [blank]
who [blank]
we [blank]
so they can [Super Fire Mario].

For [customer segment]
who [have some problem]
we [make some product]
so they can [do amazing stuff].

For [video game Donkey Kong – Mario]
who [needs to rescue his girlfriend]
we [make this magic mushroom]
so he can [be invincible, get bigger,
can take one hit], rescue his
girlfriend Pauline and win the game].

iPod

Phone

Internet

Elevator Pitch Framework

Create an interesting hook

Tell a story (not a bunch of data or features)

Provide a memorable ending

Include a call to action

Elevator Pitch Template

Hook: Grab attention (interesting fact, question, or bold statement)

Problem: What issue exists that needs solving

Solution: What your product/service does

Value: Why it matters / key benefit(s)

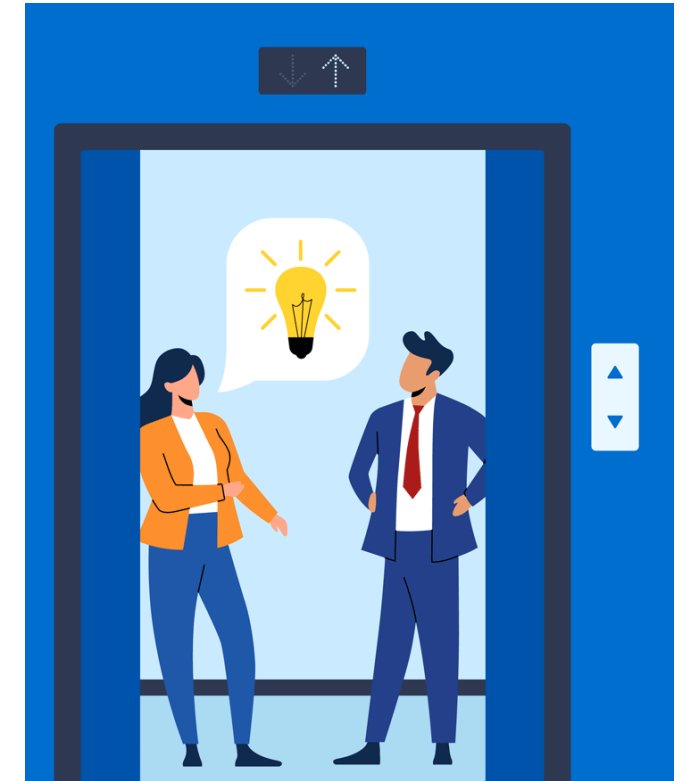

Market: Who it's for (target customer/user)

Closing: Strong finish or call to action

Optional: Short Demo

Basic flow:

Hook → Problem → Solution → Value → Audience → Close

Elevator Pitch

Project your voice

Speak clearly and loudly enough so everyone in the room can hear you.

Speak slowly and clearly

Avoid rushing through your presentation. Pausing occasionally helps emphasize key points.

Avoid filler words

Try not to overuse words like “um,” “like,” or “you know.”

Body Language

Do:

- Be natural
- Be expressive
- Move with purpose
- Keep hands away from mouth

Don't:

- Put your hands in your pocket
- Cross your arms
- Shuffle or rock back & forth
- Slouch or slump

Tips for Reducing Anxiety

- Organize
- Visualize and rehearse mentally
- Practice
- Breathe
- Focus on Relaxing
- Move
- Eye contact with the audience

When Presenting

- Presentation = performance
- Act, don't react
- Put your best foot forward
- Keep it moving
- Maintain eye contact
- Move with purpose
- Breathe
- Change pace (pitch, volume, speed)

Think

**What do you
want the
audience to
think?**

Feel

**What emotion or
response do you
want to evoke? What
do you want your
audience to feel?**

Do

**What action do
you want your
audience to take?**
